

DTSec Certificate

is awarded to

Insulet

for

Omnipod DASH™ Insulin Management System

The medical device product identified in this certificate has been evaluated at a DTSec-accredited testing laboratory according to Standard for Wireless Diabetes Device Security (DTSec) Version 2.0 for conformance to the protection profile referenced below. This certificate applies only to the specific version and release of the product in its evaluated configuration. The product's functional and assurance security specifications are contained in its security target. The evaluation has been conducted in accordance with the provisions of DTSec Version 2.0 and the conclusions of the below testing laboratory in the evaluation technical report are consistent with the evidence adduced. This certificate is not an endorsement of the product by any agency and no warranty of the product is either expressed or implied.
